

Mary Poppins on Broadway is one of the absolute BEST experiences that I have ever had at the theater! It is pure magic! I couldn't believe some of the special effects. I do not want to spoil them, but let's just say to keep your eyes overhead. You never know what might blow in! I especially enjoyed the songs and the dance routines. The chimney sweeps are great... adding such energy to the performance. This is truly an event that the whole family can enjoy, from the little ones up to the grandparents. Find Mary Poppins playing in a city near you, and be instantly transported to the busy streets of London! Disney does it again!
