

## Paradise Beach

By [Angela Ash](#)

[Paradise Beach](#) in Cozumel is not just trying to make a play on words. With a name like "Paradise Beach", there are plenty of expectations. One might expect a beautifully manicured beach, superb Mexican specialties and expertly crafted drinks. Let's even throw in activities abound and the most friendly staff on the island. In short, five minutes at Paradise Beach will have you thinking that they were a bit humble when choosing its name.□

Located just five miles from the cruise ship pier and easily accessible via taxi, this is the place where exhilaration AND relaxation walk hand in hand, upon one of the most beautiful beaches in all of Mexico.□

If adventure is on your horizon, then be sure to opt for the Fun Pass. Every water toy imaginable is available for a day of heart-pounding adrenaline. Try the water trampoline, a 14 foot iceberg climb, floating mats and kayaks, one of several slides, a water rocker, and the paddle boards, and use the complete snorkel gear to explore the warm, crystal waters. And remember, you can play all day long. There is no way you could beat this price anywhere in the Caribbean!

Want something a bit more on the calm side? Then take a leisurely swim in one of the biggest pools in Cozumel. This elegant, refreshing pool area is very reminiscent of what one would experience at a five star, all inclusive resort. Bar service is also available right next to the pool, or never even leave the water by placing your drink order with a member of the super friendly wait staff, servicing the pool and beach areas, as well as everywhere in between.

Now after so much time in the water, if delicious food is what you desire, [Paradise Beach](#) definitely delivers. With everything from sandwiches and wraps to fajitas and fresh seafood, the enticing aromas floating from the open-air restaurant are absolutely mouth-watering. The Nacho Paradise appetizer is covered in a delicious cheese that I am still dreaming about, and I have never had better chicken fajitas. While portions are large, don't even think about "sharing" a meal, because you will not want to give away one bite! You can check out the full menu

[HERE](#)

. And good luck making a choice, as that everything looks and smells delicious!

Remember that you are on vacation, so be sure that you top off your dining experience with a frozen concoction from the [bar menu](#). With so many tempting treats to choose from, keep in mind that you will not go wrong with the frozen margarita. However, the Melon Ball definitely begs for a taste... or two.

Now have I mentioned that there are hammocks? And the facility also offers Wi-Fi, restrooms, showers, changing rooms, and massages right on the beach!

[Paradise Beach](#) has truly thought of everything... except how to pack up this experience and take it with you. Exiting with beautiful memories and a full stomach, you will more than likely already be planning your next visit to this place that is truly a piece of paradise.

Visit Paradise Beach [online](#) for more information.
