

## [Hyatt Regency Cincinnati](#)

By [Angela Ash](#)

The [Hyatt Regency Cincinnati](#) is conveniently located in downtown Cincinnati, a stone's throw from Fountain Square, the Duke Energy Center, and connected to Saks Fifth Avenue. Within easy reach of museums,

stadiums, arenas, and the glitzy new Horseshoe Casino, this is the place to be.

Everything about this Hyatt Regency is sleek, shiny, and trendy. The lobby has soaring ceilings, and plenty of seating. Check-in at this property is a breeze, with one of the most friendly reception teams that I have experienced in a long time. They were even kind enough to remind us that if we joined the Hyatt loyalty program, we would receive free Wi-Fi in our room. How nice was that?

And speaking of our room, I have to dive right into its many luxuries and attributes. As with any Hyatt property, the bed was luxurious, and the mattress has become my friend on Facebook. With many categories to choose from, the Hyatt Regency offers something to fit everyone, whether you are on work assignment or just want to splurge on a luxurious suite. All rooms do come equipped with iHome stereos and iPod docks, which is an absolute essential component to my overall happiness.

If you can manage to venture from your room, a gorgeous indoor pool is offered, with an outdoor sundeck for those warm afternoons. A fitness facility is also available, equipped with everything for a quick workout or an "I ate chocolate cake" two hour blowout.

This hotel is perfect for any occasion, and reservations may be made [online](#) or by calling 513-579-1234.
