

## Wildwood Inn Tropical Dome & Theme Suites The Aladdin Suite

By: Angela Ash

Located in the beautiful city of Florence, Kentucky... almost to Cincinnati, is one of my absolute favorite hotels. This property did not make my top faves because of its down comforters or designer toiletries. This is one of the most **UNIQUE** hotels I have ever stumbled across, and I am in love!

The Wildwood Inn is everything you would hope for, but would be almost afraid to expect. If the idea of "theme suites" brings forth images of cheesy decorations and tacky accessories, then you are thinking of the wrong

place. The Wildwood Inn brings to theme suites what Disney brings to the amusement park. It is painstaking, attention to detail that transforms an ordinary hotel room into a pirate ship, a Venetian canal, or Aladdin's bedouin abode.

The Aladdin suite is beyond amazing. Silk cloths and tapestries covers walls and ceilings until you can almost hear the pipe music, and you expect one of the beautiful rugs on the ground to scoop you up for a midnight ride.

But it's not all about the decor. Creature comforts fill every corner, including a mini fridge, a microwave, a walk-in cave shower, a GIANT jacuzzi tub, and a large flat screen tv and dvd player. Nope... Aladdin didn't have HBO, either.

And it doesn't stop there! With a treasure trunk packed full of different themed suites to choose from, you can even choose to sleep in an authentic African Village, where you wonder if you were suddenly transported to another world.

**This property also boasts a large indoor pool and gorgeous waterfall hot tub, along with a game room, seating areas, pool and ping pong, and children's climbing tunnels. There is even a Tiki Bar, with great happy hour specials!**

**Make sure to make your reservations today to experience this amazing facility for yourself!**
