

Guinness World Record Museum

By Angela Ash

You've seen it on television. You've read the books. Now come and see with your own eyes what it takes to be in the Guinness World of Records Museum!

This is an interactive adventure that will entertain and delight the entire family. With exhibits that offer the opportunity to test your weight against the world's heaviest person or your height against the tallest man, you will be astounded, astonished, and often in a state of utter disbelief. Portions of this museum feel like a science center turned on its head, while others leave you marveling at the absolute power of human potential.

Located right on the Hollywood Walk of Fame, the museum is easily accessible by all means of transportation.

Visit them [online](#) for additional information, or call 323-463-6433.
