

## [Times Scare](#)

By [Angela Ash](#)

Sometimes we need a little fright in our life, and not just during the Halloween season. ☐ I've often awoken after a nightmare that should be turned into a movie and thought that if only there were a haunted attraction open in July...☐

Well, that dream is reality, and it's right in New York City!☐

Times Scare is a haunted attraction that knows that we don't always have to be plunged deep into October to want a good scare.☐ Rooms filled with everything that probably lurks behind the closet door are sure to raise your pulse with spectacular special effects, frightfully impressive live actors, and a feeling of dread as you move from one terrifying space to the next.☐

And to work up some liquid courage, the Kill Bar offers some of the most decadent cocktails around, boasting names like Death in the Afternoon, Dracula's Kiss, and Bewitched.☐

Times Scare also offers plenty of other events and activities, all with a

macabre twist.□ Stop in for "Scaryoke" or "Dead Sexy Burlesque".
