With several locations in New York City, Lucky's Famous Hamburgers live up to the name. They are definitely famous.

When asking any hotel concierge or even a passerby on the street where to find the best burger, the answer seems to tumble from their lips without a moment of hesitation.[]

The only thing that gets a bit tricky is which burger to have.[] But never fear, Lucky's even makes that simple, with the Build Your Burger option, that starts with choices on the patty like 100% Angus Beef, Turkey, Veggie, Grilled Chicken, and Mini Beef.[] Several cheese, buns, toppings and sauces are also offered.[] When they say that you can build your own burger, they mean it!

If you are ready to take out the work and order a creation from the menu, make sure to try the Chelsea (with Grilled Mushrooms, Jalapeno Pepperjack, an Onion Ring and Chelsea Sauce), or the Hell's Kitchen (with Angus Beef Chili, Jalapenos, Cheddar Cheese Sauce and Chipotle Mayo).[]

And while they are the main attraction, Lucky's is not all about the burger.[] Try their Fresh Salads, delicious Chicken Sandwiches, and Lucky Dogs.[] You may also complement any sandwich with a variety of Fries, Onion Rings, or Chili.[]

To finish things off, dig deep and find room for one of Lucky's Shakes or a fresh Chocolate Chip Cookie!
