

## [Watson Adventures](#)

By [Angela Ash](#)

I have been fortunate enough to visit New York City many times. I have been to the major museums, the Statue of Liberty, and I've been to various street markets that ended in my luggage exceeding the weight limit at the airport. In short, I thought I had experienced the best of New York City. How wrong I was!

A friendly concierge pointed me in the direction of Watson Adventures, and New York City will never be the same to me again! Watson Adventures hosts a plethora of scavenger hunts that possess an almost "Amazing Race" adrenaline quality, that sends teams on a hunt throughout various areas of the city... searching for clues... running down sidewalks... and having the absolute BEST adventure imaginable!

I attended the Ghosts of Greenwich Village Scavenger Hunt... which led teams to cemeteries, eerie buildings, and some of the haunts of the Village's

most famous inhabitants. I wish I could say more, but you **MUST** be part of the hunt, so I won't give away any clues!

And this is just one of many hunts that Watson Adventures offers. Imagine running about the Museum of Natural History, or Grand Central Station!

This is by far the most **FUN** experience that is offered in New York City. Grab your flashlight, a few friends, and be ready for... well, **ANYTHING**.
