

Staybridge Suites

By [Angela Ash](#)

Located close to the Baltimore Washington Airport is a true traveler's oasis! The Staybridge Suites offers amenities that will please the most discerning visitor, while providing the comforts and conveniences to make your stay energizing and memorable.

People often say that location is key, and this Staybridge Suites is convenient to virtually anywhere you may want to go in the Baltimore area. Right by the BWI Airport, this property is perfect for those arriving by air, with an inviting room just a few minutes away from landing. Convenient to several interstates and offering complimentary parking, those families

making a summer road trip will also find this locale perfect for their needs. With the exciting attractions of the Inner Harbor just moments away, the Staybridge Suites is the ideal place to call "home" during your visit to Baltimore and its outlying areas. The chivalry of Medieval Times, budget-friendly outlet shopping, and Baltimore Live's casino action are also minutes within your reach!

You will find it extremely difficult to find a hotel that offers this pleasing array of amenities! A business center is available, making it simple to finish up a report, or to print out directions, and in-room Wi-Fi is free for all hotel guests. A complimentary breakfast buffet will greet you every morning, complete with biscuits and gravy, breakfast meats, pastries, cereal, and all of your favorites. The fitness facility is at your disposal to work off that large breakfast, or you may take a few laps in the sparkling, outdoor swimming pool. This hotel thinks of everything, by providing on-site laundry facilities, as well!

And my absolute favorite offering is the ability to check out free movies to watch in the DVD player located in every room. However, if you have a different experience in mind, you may watch your selection in the screening room, complete with a big screen and comfortable seating.

Now, you may find it a task to actually leave your room at all, because it comes complete with all of the comforts of home! Rooms come equipped with a full kitchen, which can really help you stick to that budget getaway. The bedding is super comfortable, and provides an excellent, restful night's sleep.

Whenever your travels take you near Baltimore, make the Staybridge Suites your first stop!
