Baltimore

Located conveniently right in the Inner Harbor, the entire family will enjoy what Ripley's has in store! There are very few places where you can see shrunken heads, the Fiji Island Mermaid, and sculptures and works of art created by the oddest materials... all before lunch!

This is a museum like no other! In fact, it's an "odditorium"... a place where the most fantastical can come to life right before your very eyes.

And if this attraction were not enough to fill up a lazy Saturday, the folks at Ripley's also offer a mirror maze and a moving theater!
