

I was so impressed with this property that I could go on for days! The hotel has many theme suites, and we opted to stay in the "Tennessee Cave". I can hardly put into words how impressed I was! The cave was so authentic it was almost unreal. Fully equipped with stalactites and stalagmites, it was such a unique experience. Now, if you can manage to leave your room at all, there is a fantastic indoor swimming pool, complete with a large, waterfall hot tub. There's even a bar and game room! I will definitely keep returning to the Wildwood Inn, located just off of I-71 in Florence, Kentucky.
